## Create Your Puzzle

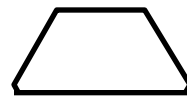

Can you create a puzzle that someone else will solve?

1. First make a puzzle using between 4 and 10 shapes. You may turn and flip any shape you use.
2. Every shape must touch one another on their sides.

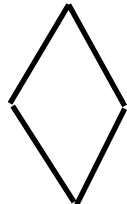

3. How many hexagons

How many trapezoids

How many large rhombuses

How many squares

How many triangles

How many small rhombuses

4. Save your work as **PZ**.
